Highlights

- 418,000 people received food assistance, reaching 32% of the CO1 target and 50% of the prioritized caseload across 65 townships.
- IDPs accounted for 98% of beneficiaries, reflecting prioritization of displacement-related needs.
- Coverage was uneven across locations, with many townships remaining below target levels.
- Funding and access constraints reduced response capacity and affected assistance adequacy.
- About 1 million targeted people remain unreached, highlighting significant humanitarian gaps under CO1.
- Reported over-achievement and outreach to untargeted populations at township and state/region levels (e.g., Mandalay and Ayeyarwaddy Regions) reflect scaled-up responses to emerging needs.

GAP BENEFICIARIES

At Township Level

1 M

(Excluding "over-reached" and "untargeted reached" figures)

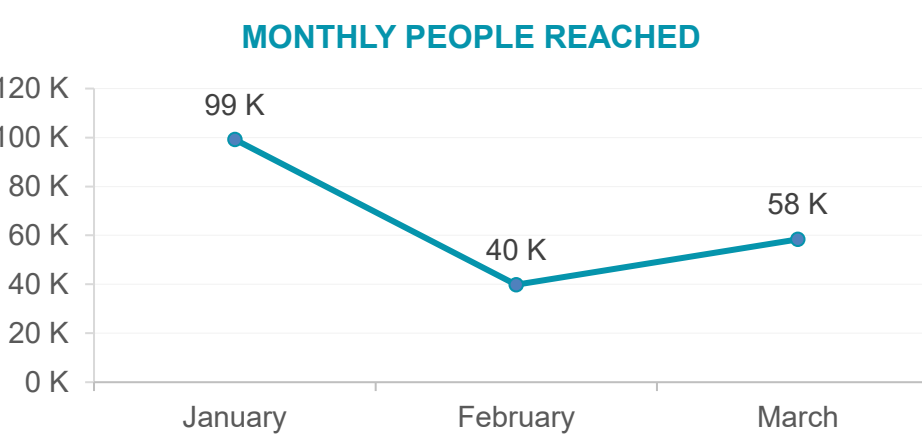

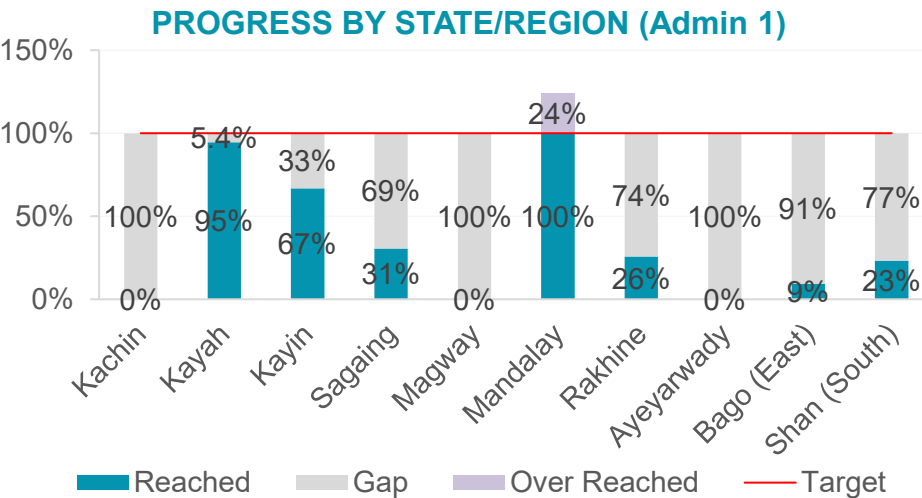

Highlights

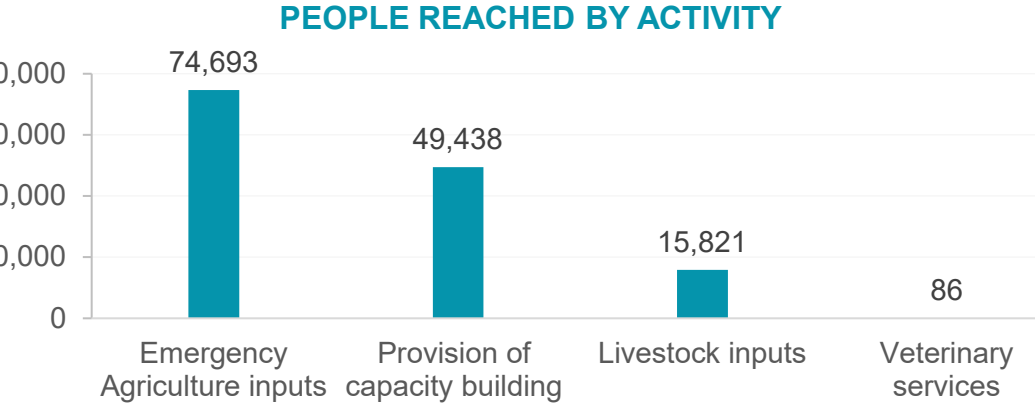

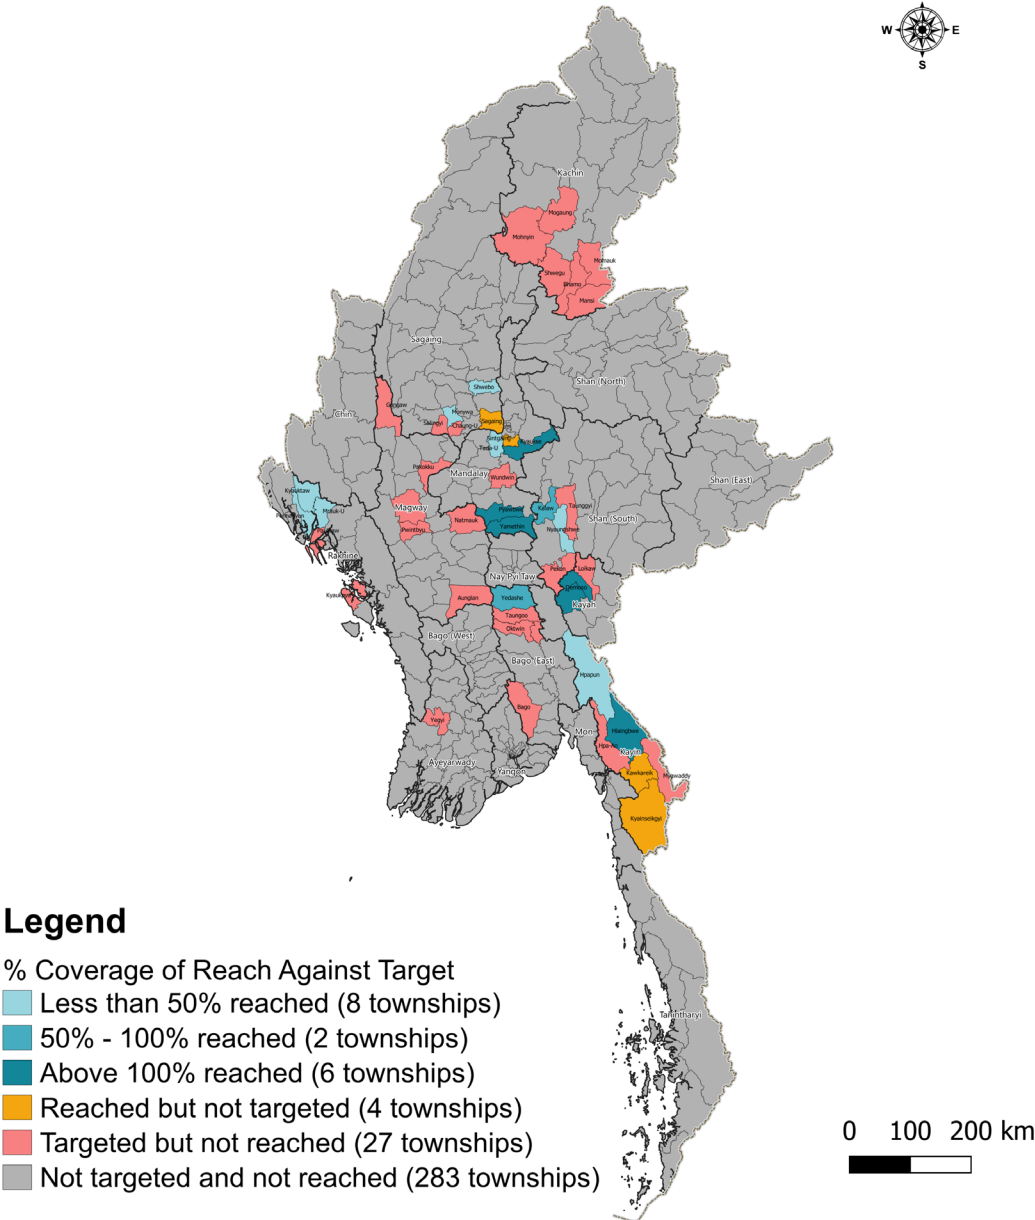

- 140,000 people received food production and livelihood support, reaching 30% of the CO2 target and 50% of the prioritized caseload.
- Assistance mainly focused on crop support and capacity-building, while livestock and veterinary support remained limited.
- Funding and resource constraints limited the scale, timing, and diversity of assistance.
- Around 369,000 targeted people remain unreachable, highlighting ongoing food production support gaps.
- Reported over-achievement and outreach to untargeted populations under CO2 similarly reflect scaled-up responses to emerging needs.

Highlights

Between January and March 2026, approximately 73,744 people were reached with food security assistance delivered by 27 partners outside of the HNRP framework. The largest proportions of beneficiaries were supported through provision of agricultural inputs, restoration and recovery of productive assets, and food and cash-based assistance for work or asset creation, alongside capacity-building activities. Geographically, the highest numbers of beneficiaries were reached in southern Shan, Mandalay, and Rakhine, followed by Kachin and Ayeyarwady.
